

Create a **PRE-MIDTERMS COMMUNICATION NETWORK**

Goal: Reach out to family, friends, and associates both here and in other states. Convey the importance of large scale, early voting as the best election protection plan in the face of historic voter suppression efforts.

Laws guiding voter roll purges may change. Give your contacts the links they'll need to confirm they're still properly registered to vote this fall. **www.vote411.org/check-registration**

This link shows everything your contacts need to know about voting in their state, especially where and how to vote early and in-person in the face of mail-in voting threats. **www.866ourvote.org**

If appropriate, ask contacts to sign up for **Hands Off Our Vote** to receive ongoing news and get rapid response alerts about real-time threats. **<https://indivisible.org/campaigns/our-vote>**

No Kings mobilized 8 million people in their last event in March! Your contacts can join the October 17th No Kings/Vote Early Nationwide Day of Action to take part in private or public actions. **www.nokings.org**

Encourage your contacts to share this information with their own networks!

What To Do: Use the attached form to brainstorm who to contact and what the best options will be when you do so. Commit to reaching out to the people on your list within a week!

Why This Will Work:

- People trust information they hear from personal contacts.
- Person-to-person organizing can beat the billions of dollars being spent on this election.
- If everyone here shares with 10 people, and even 5 of those people share with 5 more, that's 35 people reached from your own individual effort!

INDIVISIBLE IS ASKING US TO:

Do it. Take direct action ourselves.

Share it. Share what we are doing with others and invite them to join.

Flex it. Build networks for coordinated action to make a bigger impact.
